SHAFIN*

Hey, I'm Shafin. I cut ads that *sell*, and these days a lot of what's in them I generate myself. Give me a product and a prompt and I'll hand you a finished ad.

DON'T TAKE MY WORD FOR IT, WATCH THE WORK

I generate with

Google Flow · Veo 3 · Kling · Runway · Higgsfield · Midjourney · Nano Banana · Seedance · ElevenLabs · Melius

I cut

UGC ads · VSL · Hype edits · Motion graphics · SaaS launches · Podcasts · EN and Chinese VO

I build with

Next.js · React · TypeScript · Supabase · WordPress · Playwright · Claude Code

Where I work

Senior Video Editor at Shown

UGC ads, hype edits, VSLs, SaaS launch videos and AI ads for brands. I cut for the hook first and the sale second.

InRealLife on TikTok

I run the channel day to day and get a new video out every single day.

On the side

Managed a client TikTok to 558 posts, and I coach people one on one on my AI ad workflow.

No camera needed

Actors, voices, b-roll and product shots, all generated.

Same face, same light, shot after shot.

One winning ad becomes twenty variants by tonight.

Things I've built

SpeakSure NEXT.JS + SUPABASE

My own take on Google Classroom for paid English courses. Teachers approve students, lessons unlock in order, and it speaks English, Chinese and Arabic.

AbroadNet CLIENT, REACT

A study-abroad site that turns visitors into leads, with an AI chat assistant and a Google Sheets CRM behind it.

Brands I've cut for

VKTRY / FreePrints / RescueMD / Notch / WithCoverage / TodayTix / Trump Footwears / Inside Success / RS Chrono / Analucia Diamonds / MarsMen / Wantable / Meraki Blu / Xnote / Wajo / Buildbetter
