Experience

Senior Video Editor, Shown — Present

- Edit short-form ads, VSLs and product videos for client brands.
- Cut for hooks, retention and conversion on TikTok, Reels and Shorts.

Channel Operator, InRealLife (TikTok) — Present

- Operate the InRealLife TikTok channel: edit and publish a new video every day.

Freelance Video Editor and Social Media Manager — Remote

- UGC ads, hype and launch edits, AI generated ads, VSLs, SaaS product demos and podcast clips.
- English and Chinese voiced versions of ads, written and recorded by me.
- Managed a client TikTok account end to end: 558 posts, captions, scheduling and reporting.
- 1:1 coaching on AI ad workflows (Google Flow, Melius).

AI Ads and Generation

- Build full ads from a prompt: script, AI actors and voice, b-roll, product shots and motion, cut to a finished creative.
- Generate anything the edit needs: video, images, voice clones, music, lip sync, upscales and background removal.
- Prompt engineering for consistent characters, camera moves and brand look across every shot.
- Node-based pipelines (Melius) and code-driven motion graphics with Claude Code, so a winning ad becomes 20 variants fast.
- Pick up any new model the week it ships and fold it into the workflow.

Projects

SpeakSure: online classroom for paid English courses — Next.js, Supabase

- A Google Classroom alternative: teacher approval enrollment, tasks that unlock in order, drag to reorder classwork.
- English, Chinese and Arabic interface. 6k lines of TypeScript, 69 commits.

AbroadNet: study-abroad consultancy site (client) — React, Vite

- Lead funnel into a Google Sheets CRM, Gemini chat assistant, English and Bangla, 534 course listings.
