VIDEO EDITING

UGC ads	Short-form ads for TikTok, Reels and Shorts, cut for hooks, retention and conversion.
Hype and animation	Fast, punchy edits and motion graphics for product and app launches.
AI engineered ads	AI generated ads built with prompt engineering, from first prompt to finished creative.
VSL	Long-form video sales letters and talking-head sales pitches.
SaaS video asset editing	Product demo clips, feature walkthroughs and launch videos for software companies.
Podcast and bilingual	Podcast clips, plus EN and Chinese voiced versions written and recorded by me, so both land like the original.

BUILD AND AUTOMATION

Dashboards	Classroom-style dashboards and internal tools. Built SpeakSure, an English learning platform (Next.js, TypeScript).
WordPress	Portfolios, landing pages and business sites that look custom, not templated.
Automation	Playwright bots and workflows: scraping, testing and repetitive tasks on autopilot.

SOCIAL MEDIA AND COACHING

Account management	Daily content, captions, scheduling and growth reporting. Managed 558 posts on one TikTok account.
InRealLife	My own TikTok channel. I shoot, edit and post a new video every day.
AI coaching	Live 1:1 sessions on my workflow: Google Flow, Melius node-based editing, prompt to finished ad.

BRANDS I HAVE CUT FOR

VKTRY / FreePrints / RescueMD / Trump Footwears / Inside Success / RS Chrono / TodayTix / Analucia Diamonds / MarsMen / Wantable / Meraki Blu / Xnote / Wajo / Buildbetter
